Hi Maia,

I missed assigning someone to do the EFH fishing effects analysis for BSAI flathead sole. I know you covered GOA flathead sole. Could you please review the EFH fishing effects analysis for BSAI flathead sole? Molly Zaleski is asking who she should contact to discuss, and will direct you to the materials. Are you available to do this (after you talk, of course)?

Thanks,  
Sandra

Hi Sandra

No problem - I actually communicated with Molly last week regarding this. I had already taken care of GOA and Bering Sea flathead, but didn't realize that in the EFH system AI flathead is treated separately from BS; we were able to update the AI EFH information with the relevant details from the BS. It should be squared away now!

Sorry for the mix up.  
MK

Thank you! That's good news on a Tuesday that feels like a Monday.

Yes, EFH splits up areas that don't align with our stock assessments. So it gets confusing.

Thanks,  
Sandra
